

Help shape the future of aerospace and defense

Raytheon Technologies (NYSE: RTX) is an aerospace and defense company that provides advanced systems and services for commercial, military and government customers worldwide. The company was formed in 2020 through the combination of Raytheon Company and the United Technologies Corporation aerospace businesses and is headquartered in Waltham, Massachusetts.

Our vision: one global team creating trusted, innovative solutions to make the world a safer place

195,000
employees

60,000
engineers

40,000
patents

190+
years of combined innovation and industry leadership

KEY CAPABILITIES

Actuation, propeller and landing systems

Aerostructures

Aircraft engines and auxiliary power systems

Avionics

Cybersecurity

Data analytics

Interiors

Missile defense

Precision weapons

Systems integration and sensors

Raytheon Technologies consists of four highly specialized businesses:

Collins Aerospace

Specializes in aerostructures, avionics, interiors, mechanical systems, mission systems, and power and control systems that serve customers across the commercial, regional, business aviation and military sectors.

Pratt & Whitney

Designs, manufactures and services the world's most advanced aircraft engines and auxiliary power systems for commercial, military and business aircraft.

Raytheon Intelligence & Space

Develops advanced sensors, training, and cyber and software solutions — delivering the disruptive technologies its customers need to succeed in any domain, against any challenge.

Raytheon Missiles & Defense

Provides the industry's most advanced end-to-end solutions to detect, track and engage threats.

Launch your career at Raytheon Technologies

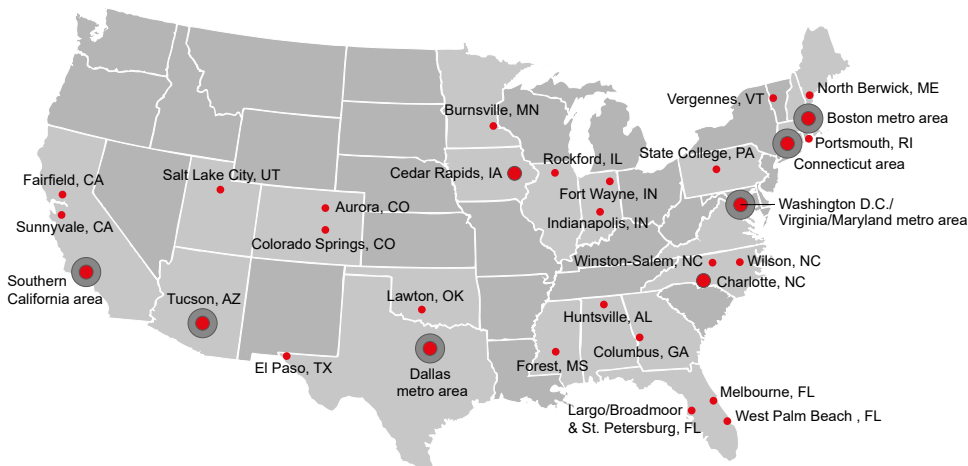

Join a diverse global team working together to solve some of the world's most demanding challenges. If you're looking to advance your skills and make the impossible possible, it's all here for you at Raytheon Technologies.

Our values

TRUST

We act with integrity and do the right thing.

RESPECT

We embrace diverse perspectives and treat others the way they want to be treated.

ACCOUNTABILITY

We honor our commitments, expect excellence and take pride in our work.

COLLABORATION

We share insights, learn together and act as a team.

INNOVATION

We experiment, design, build and transform with speed and agility.

Diversity and inclusion

The people of Raytheon Technologies come from different backgrounds. A diverse company is a strong company. As a new company formed from the legacy of two aerospace and defense giants, we have the experience, scale and resources to really make a difference. We must, and we will. We know how to solve the world's biggest technology problems. We will continue to put that same spirited energy into making real progress on diversity and inclusion.

Social impact

We believe we have a responsibility to change the world for the better. Raytheon Technologies supports leading nonprofit causes that are shaping the next generation of purpose-driven innovators and making a transformative impact on local communities around the world.

- **Our communities:** Through strategic investments in organizations serving veterans, military families and an array of social welfare needs, we're improving the communities where we live and work.
- **Sustainability:** In every respect — the environment, engineering, design or operations — sustainability is a business imperative.
