3. Petition to remove Swaziland from GSP and AGOA. The petition filed in 2001 to remove Cape Verde from GSP and AGOA.

Petitioners are requesting that the President of the United States consider banning the importation of certain products from these countries that are not available on the fair market.

The petitioners argue that these products are not available on the fair market and therefore should not be included in the list of products eligible for the GSP.

The petitioners also argue that these products are not available on the fair market for a variety of reasons, including the lack of competition and the high cost of production.

The petitioners request that the President of the United States take action to ban the importation of these products and to include them on the list of products eligible for the GSP.

Petitioners: John Doe and Jane Smith

Date: October 29, 2002
